Belvidere, Ill., Dec. 3, 1891.
NORMAN LIGHTY, Des Moines, Iowa.
DEAR SIR:—Having suffered a great deal from headache for years and being unable to get relief until it would wear away of itself. I saw Krause's Headache Capsules advertised, I tried them and now am never without them, finding it the only remedy that will give me relief. When I now find a headache coming on me I take a capsule and find the relief instantaneous.
Respectfully yours,
G. H. WRIGHT,
Boston, Mass.

ALL SORTS.

Sheriff Stewart of Hawthorne is in town.

Chris. Zabriskie went through last evening on his way home to Oakland.

Fifteen men were let out Thursday at Incline, and three teams were dispensed with.

There is no truth in the report that one of the C & C postal clerks is to be taken off the road.

Mrs. D. J. Cohen, who has been visiting in Carson a few days, departed for home in Boise City, last evening.

Early yesterday morning Mrs. George Bath, who resides near the prison road, was taken suddenly ill, with nervous prostration.

A Chinaman on the stand in San Francisco swore that his child was a boy, and his wife was equally positive in asserting that it was a girl. The question now arises, would the infant's testimony stand in the Court's?

People living in the neighborhood of the Catholic Church are complaining of the depredations of a crowd of youngsters who not only steal fruit but break down the limbs of the trees and tear pickets from the fences.

The Curtis Case.

San Francisco, Aug. 25.—Argument in the Curtis murder trial was finished this morning and the case was given to the jury at noon. At 1 o'clock the jury reported it was unable to agree, and was sent back for further deliberation.

The jury returned a verdict shortly after 3 this afternoon of acquittal. The jury on the first ballot stood 9 to 3 for acquittal. This is the third trial of Curtis, the first two trials disagreeing.

Monkeyed With The Wrong Fluid.

A whisky seller should not monkey with water, but should confine himself to the fluid he knows most about. A Milwaukee bartender tried an experiment not long since by throwing a stream of water from a small hose against a bright copper trolley wire. The electric current accepted the invitation to come down, and before the bartender knew what was the matter he lay stunned on the street. It is not generally known outside of electric circles that electricity will travel down a jet of water with the greatest ease, and that was found to be the cause of the trouble, even though the bartender gave it as his idea when he regained consciousness that a large portion of the heavens had fallen.

Fire in Chicago.

Chicago, Aug. 25.—A fire in South Chicago last night destroyed over 200 buildings. Four thousand people are homeless. Loss about half a million. It is a manufacturing district, and the buildings were the homes of workmen.

A FINANCIAL CATECHISM.

Farmer Answers Several Pointed Questions.

Question—How does Europe dictate the financial policy of the United States?

Answer—Through the banks and clearing houses of Boston and New York.

Q.—Why are these agents of the European bondholders so determined in their efforts to demonetize silver?

A.—They are working under instructions from senior Rothschild, and are well paid for obeying orders.

Q.—Why do the Rothschilds oppose the use of silver as money of ultimate redemption?

A.—They are afraid that if money becomes plentiful the people might eventually work out of debt and the bondholding aristocracy would be obliged to engage in some business that would require more physical labor than the clipping of interest coupons.

Q.—Why do the leaders of the Republican party claim that the hard times we are now experiencing is caused by fear of a radical change in the tariff?

A.—The leaders of the two old parties are the pliable tools of the goldbugs, and are instructed to engage the people in another sham tariff battle.

Q.—Why does the President spend so much of his time at Buzzards Bay?

A.—Because it is a resort of goldbugs and pawnbrokers whose society is very congenial, and there is no danger of any free coinage crank "calamity howler" disturbing the President's quiet repose.

Q.—Why did Carlisle refuse to purchase the full quota of silver last month?

A.—The Administration is a full partner in the conspiracy to ruin the silver industry, and will violate any law that does not suit the European bondholders. The great American eagle is thoroughly subdued and the British lion is getting in his work.

Q.—Why are the New York banks allowed to keep open house when they lack millions of dollars of holding the legal amount of lawful money?

Sixty-five of the New York banks are members of the New York clearing house, and the administration looks to them for instructions. The banks have repeatedly violated the law and the treasury department dares not to lift a finger. The New York clearing house has already issued between thirty and forty million dollars in clearing house certificates, and the New York banks have bulldozed the wholesale importers and merchants of that city into using these certificates in the place of lawful money. The merchants and importers, being indebted to the banks, dare not complain. Even depositors are being paid in these certificates and the right to issue money which is vested in Uncle Sam, has been appropriated by these New York banks. If the people knew by what means these N. Y. banks were keeping open house, it would consign the two old parties to their political tomb. Uncle Sam's treasury department has simply become a silent partner of the New York clearing house.

FARMER.

Cannot be Suppressed.

Chicago, August 25.—Mayor Harrison continues skeptical as to the suppression of gambling. In an interview he said: "I wish the Special Grand Jurors all kinds of success and the most perfect success. I hope they will wipe out gambling, but I want to wipe it out along the line, and not pick out a man here and there. I have fought gambling for years with uncertain success. I hope the grand jury will be able to stop it, and hope they will stop it everywhere."

"But I believe that gambling cannot be suppressed. I have tried for years and I have not succeeded. To suppress it in the center of the city is merely to drive it to worse places. Major McLaughrey came to me and stated plainly that gambling could not be suppressed and that for the police to attempt to suppress it in the city would be to drive it to more objectionable quarters. Gambling under this administration is being governed on a plan laid out by Major McLaughrey."

Fatal Cyclone.

New York, Aug. 25.—Reports from all along the Atlantic coast state that many vessels were lost in the big storm, and the crews drowned. The loss of life will exceed sixty.

COAST NEWS.

The vineyardists of Fresno have agreed upon a rate of \$1 a day and board to grape-pickers.

The Daniel Flint hop-field on the Riverside Road near Sacramento, offers \$1 a day to white people.

Miss Abbie Cate, a very popular young lady at Adin was killed by a runaway team Thursday.

Miss Nora Stalker, sixteen years of age of Sacramento, was washed off the rocks at Twin Lakes Park, near Santa Cruz, Thursday, and drowned.

The man Reiter, who is under arrest for the murder of one Snellman, near Astoria, confesses that a companion brained the latter with a rock, and the two divided the money found on the body.

Constable Lee and several citizens at Milpitas, after a running fire, captured three burglars, one of whom is supposed to be the person who assaulted General Barnes at San Francisco some time ago.

It is reported from the Upper Satop, Wash. that the elk are beginning to come down from the mountains. One settler states that he saw a herd of no less than thirty on one of the west forks of the river.

Forest fires have destroyed hundreds of thousands of dollars' worth of fine timber in Cow Creek Canyon, in Oregon. Travel was blocked on the old overland wagon road. One outfit passing through was nearly destroyed, men and horses, by the flames.

A Port Townsend man has put up a lot of Puget Sound sardines and is sending sample cans to various dealers at Seattle, Tacoma, Portland and other coast cities with a view of having their relative merits tested in comparison with similar products from other waters. These fish are confidently said on the Sound to be the regular California anchovy, being the same as the genuine Mediterranean sardine, only more tender and agreeable to the taste.

From Hope Valley.

The following items are taken from the Hope Valley Howler, published at Woodford, by Tommy Tennant of the APPEAL and Geo. Davis of the Weekly:

The fish are biting ravenously; so are the mosquitos.

Parties who wish to pay their subscription to the Howler in fish will please leave them on Friday's only.

While turning a flap-jack yesterday, the hot-cake fell on the stove completely demolishing it—we mean the stove.

While attempting to recover a "snagged" hook yesterday, the junior editor of the Howler fell in and was nearly swallowed by a 2-pound trout, which took him for a grass-hopper.

If the young lady who swiped our tennis shirt will call this evening she will be given the rest of the suit.

While Harry Young was watching some girls in a hammock last evening a man hitched to him, thinking he was a tree. Harry was still watching the girls when the man got his horse.

The Howler will suspend publication Saturday night, as the proprietors intend leaving for Carson, which they expect to reach Sunday evening if the horse is willing.

From this on no proposals for the hand of the senior editor of the Howler will be answered unless stamps are enclosed.

A subscriber asked us to give our silver views. Impossible—none in view.

The Bartine Fund.

There are still a number of persons in Ormsby county, who profess to be sincere silver men, who have not contributed towards the fund which goes to pay the expenses of a man who is laboring in their behalf at Washington. It isn't too late, however, and the APPEAL would like to see a substantial increase in the fund before Saturday night.

Empire is in Ormsby county, and the citizens should see to it that Empire is represented in the list.

Query.

TO THE EDITOR OF THE APPEAL:—Will some one conversant with the history of New York City inform me at what hotel Jim Fisk was shot by Ed. Stokes; also on what street it is located, and the present name of the hotel.

SUBSCRIBER.

Quite a number of people in town are having their houses roofed and painted so as to be in readiness for the coming winter.
